TRIM TAB: HOW TO LEAD THROUGH CHANGE

Over the next 30 years, we'll encounter some of the greatest transitions that any generation has ever had to face. Technological, geo-political, environmental and social disruption is already affecting every part of our lives...every business, every industry, every society...even what it means to be "human." These changes show no signs of slowing down; in fact, they're accelerating rapidly.

While most leaders have come to accept that change management is a priority, few organizations have effectively cultivated true change embraceability and integrated change as a core discipline. In fact, two-thirds of large-scale change efforts fail.

What are the most important skills you need to successfully lead your team through change and substantially increase the odds of success? How can you develop the necessary mindset for new initiatives to be welcomed and seamlessly integrated? How do you avoid change fatigue?

Sandy Asch, Principal Alliance for Organizational Excellence LLC, bestselling author of *ROAR: How to Build a Resilient Organization the World Famous San Diego Zoo Way*, internationally recognized speaker, global consultant, best place to work expert, woman of influence and architect of the Resilience at Work™ model.
